Omron Connectivity SDK

Release Notes

2024/5/10

SDK Package Release Notes

■ Latest Version

SDK Package Version	3.4.1.0

Android SDK Version	
Connectivity Library	3.4.1.0
Sample Application	6.1.0
Implementation Guide	4.5

iOS SDK Version	
Connectivity Library	3.4.1.0
Sample Application	6.2.0
Implementation Guide	5.6

■ Release Notes

Dates	Release	Notes	
2024/5/10	3.4.1.0	iOS/Android	・ Add support devices to some partner API keys
2024/3/29	3.4.0.0	iOS/Android	・ Corrected error message
			・ Added API reference documents in the appendix
		iOS	・ Library supports for privacy manifests
			・ Added code signing to Library
			・ Fixed some Sample Application issues
			・ Target Xcode version has been changed to 15 or higher
			・ Target iOS version has been changed to 12 or higher
2024/1/30	3.3.0.0	iOS/Android	・ Added support devices
			・ Fixed some Sample Application issues
			・ Added data structure documents in the appendix
		Android	・ Library TargetSDK changed to 33 MinSDK changed to 19
2023/10/27	3.2.0.0	iOS/Android	・ Updated the Sample Application to save information of paired devices
			・ Made overall changes to the UI related to pairing in the Sample Application
			・ Fixed connection issues on some devices
			・ Added some key for vital data
			・ Added some key for settings
			・ Some keys for Vital Data are no longer supported

		Android	・ Enabled obfuscation for the OmronConnectivityLibrary
		iOS	・ iBeacon is no longer supported
2023/8/21	3.1.1.1	iOS/Android	・ Add support devices to some partner keys
2023/7/14	3.1.1.0	iOS	・ Fixed for several issues with displaying vital data
2023/6/30	3.1.0.0	Android	・ DCI no longer requires configuration ・ Fixed some Sample Application issues
2023/6/30 2022/12/23	3.1.0.0 3.0.29.0	iOS	・ DCI no longer requires configuration ・ Fixed some Sample Application issues ・ Support OmronConnectivityLibrary for xcframework
		Android	・ Fixed connection issues on some devices ・ Fixed some Sample Application issues ・ Add Partner Keys
2022/12/23	3.0.29.0	iOS	・ Fixed connection issues on some devices ・ Add Partner Keys

Android SDK Release Notes

■ Latest Version

Android SDK Version	
Connectivity Library	3.4.1.0
Sample Application	6.1.0
Implementation Guide	4.5

■ Release Notes

Dates	Category	Release	Notes
2024/5/10	Connectivity Library	3.4.1.0	・ Add support devices to some partner API keys
2024/3/29	Connectivity Library	3.4.0.0	・ Corrected error message
	Implementation Guide	4.5	・ Improved Content for Error Handling ・ Added the Appendix-API referenceAndroid.pdf as an attachment
2024/1/30	Connectivity Library	3.3.0.0	・ Added keys for exponent values for retrieved height, weight, and stride ・ Added support devices ・ Library TargetSDK changed to 33 MinSDK changed to 19
	Sample Application	6.1.0	・ Modified so that historical data can be deleted ・ Supports localization of date display format ・ Removed sequence number display. ・ Fixed the height/weight/step settings so that decimal points can be entered.
	Implementation Guide	4.4	・ Added data structure explanation material ・ Added some key for personal settings ・ Added some key for setting configurations
2023/10/27	Connectivity Library	3.2.0.0	・ Fixed connection issues on some devices ・ Merged the definitions of devices with the same GroupIncludedGroupID into a single definition ・ Added some keys for settings ・ Some keys for Vital Data are no longer supported ・ Enabled obfuscation for the OmronConnectivityLibrary

	Sample Application	6.0.0	· Updated to save information of paired devices · Overall changes were made to the UI related to pairing
	Implementation Guide	4.3	· Added some key for vital data · Added some key for settings · Some keys for Vital Data are no longer supported · Added description of scan settings · Added a description regarding invalid values for Vital Data
2023/8/21	Connectivity Library	3.1.0.1	· Add support devices to some partner keys
2023/6/30	Connectivity Library	3.1.0.0	· DCI no longer requires configuration · fixed the floating-point calculation error issue
	Sample Application	5.2.0	· Fixed some Sample Application issues
	Implementation Guide	4.2	· DCI no longer requires configuration · Updated descriptions of some keys · Updated development environment
2022/12/23	Connectivity Library	3.0.29.0	· Fixed connection issues on some devices · Add Partner Keys
	Sample Application	5.1.1	· Fixed connection issues on some devices · Fixed notification issue on Android 12

iOS SDK Release Notes

■ Latest Version

iOS SDK Version	
Connectivity Library	3.4.1.0
Sample Application	6.2.0
Implementation Guide	5.6

■ Release Notes

Dates	Category	Release	Notes
2024/5/10	Connectivity Library	3.4.1.0	· Add support devices to some partner API keys
2024/3/29	Connectivity Library	3.4.0.0	· Corrected error message · Library supports for privacy manifests · Added code signing to Library
	Sample Application	6.2.0	· Fixed user selection dialog
	Implementation Guide	5.6	· Improved Content for Error Handling · Added the Appendix-API referenceIOS.pdf as an attachment · Target Xcode version has been changed to 15 or higher · Target iOS version has been changed to 12 or higher · Added note about SDK code signing
2024/1/30	Connectivity Library	3.3.0.0	· Added keys for exponent values for retrieved height, weight, and stride · Added support devices
	Sample Application	6.1.0	· Modified so that historical data can be deleted · Supports localization of date display format · Removed sequence number display · Fixed the height/weight/step settings so that decimal points can be entered.
	Implementation Guide	5.5	· Added data structure explanation material · Added some key for personal settings · Added some key for setting configurations
2023/10/27	Connectivity Library	3.2.0.0	· Fixed connection issues on some devices · Merged the definitions of devices with the same GroupIncludedGroupID into a single

			definition
			· iBeacon is no longer supported
			· Added some keys for settings
			· Some keys for Vital Data are no longer supported
	Sample Application	6.0.0	· Updated to save information of paired devices
			· Overall changes were made to the UI related to pairing
	Implementation Guide	5.4	· Added some key for vital data
			· Added some key for settings
			· Some keys for Vital Data are no longer supported
			· Added description of scan settings
			· Added a description regarding invalid values for Vital Data
			· iBeacon is no longer supported
2023/8/21	Connectivity Library	3.1.1.1	· Add support devices to some partner keys
2023/7/14	Connectivity Library	3.1.1.0	· Fixed for several issues with displaying vital data
2023/6/30	Connectivity Library	3.1.0.0	· DCI no longer requires configuration.
			· Support OmronConnectivityLibrary for xcframework
			· fixed the floating-point calculation error issue
	Sample Application	5.2.0	· Fixed some Sample Application issues
	Implementation Guide	5.3	· DCI no longer requires configuration
			· Updated descriptions of some keys
			· Updated development environment
2022/12/23	Connectivity Library	3.0.29.0	· Fixed connection issues on some devices
			· Add Partner Keys
	Sample Application	5.1.1	· Fixed connection issues on some devices
